CENTRAL INTELLIGENCE AGENCY

This Agency advises the National Security Council in matters concerning such intelligence activities of the Government departments and agencies as relate to national security and makes recommendations for the coordination of such activities. It correlates and evaluates intelligence relating to the national security and performs certain services of common concern for the benefit of existing intelligence agencies.

In support of these functions, CIA occasionally contracts with other government agencies and with non-governmental institutions for research on certain aspects of intelligence matters.

For information concerning research in progress or completed reports call:

For individual contracts:
